NEW COLOSSUS
• FESTIVAL •

MARCH 9-13, 2022
LOWER EAST SIDE, NYC

WELCOME BACK TO
**THE NEW COLOSSUS
FESTIVAL!**

We would like to take this opportunity to welcome our guests to the 2022 edition of The New Colossus Festival. Our return to NYC's Lower East Side is something we're really excited about and we want to thank you for recognizing the value and beauty of live music by attending the numerous showcases throughout the course of the week. We are extremely happy to be back together again and are looking forward to enjoying some great new music from around the world with you.

In addition to the performances and events, The New Colossus Festival celebrates New York City. Our city's history of welcoming the world to its shores inspired the name of the festival which is taken from the title of Emma Lazarus' sonnet written in 1883 entitled "The New Colossus." Its words are inscribed on the Statue of Liberty and it sends a powerful message that is relevant today in so many ways: the importance of maintaining New York City as a home for artistic expression, and THE destination for artists from all over the world.

For many of the showcasing artists, this will be their first performances in New York City or even the United States. For others, this will be their first time playing a music festival. We hope that you like what you hear as you attend the shows with open ears and an eagerness to discover something new in a room with like-minded people. We are thrilled by the community that has been growing annually at the festival and love that it is based on the central goal of building a family.

We hope you have a great time!

Mike Bell, Lio Kanine & Steven Matrick
