WELCOME TO THE NEW COLOSSUS FESTIVAL 2026!!

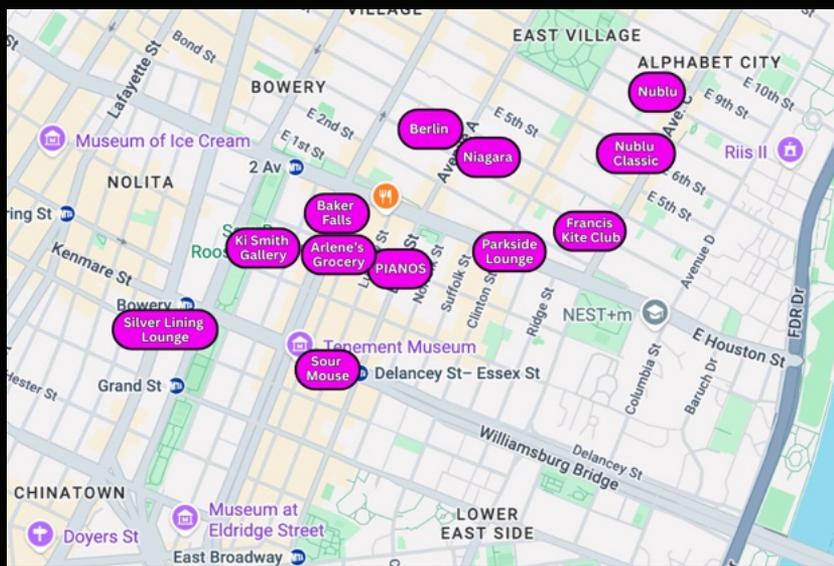

We would like to take this opportunity to welcome everyone to the Seventh edition of The New Colossus Festival. This is our favorite time of year and we are looking forward to enjoying some great new music from around the world with you.

In addition to the performances and events, The New Colossus Festival celebrates New York City. Our city's history of welcoming the world to its shores is what inspired the name of the festival, which is taken from the title of Emma Lazarus' sonnet written in 1883 entitled "The New Colossus." Its words are inscribed on the Statue of Liberty and it sends a powerful message that is relevant today in so many ways: the importance of maintaining New York City as a home for artistic expression, and the destination for artists from all over the world.

For many of the showcasing artists, this will be their first performances in New York City or even the United States. We hope that you like what you hear as you attend the shows with open ears and an eagerness to discover something new in a room with like-minded people. We are thrilled by the community that has been growing annually at this festival and look forward to spending the next six days together.

We hope you have a great time!
Mike Bell, Lio Kanine & Steven Matrick
